Dear Mr. Culp:

This refers to your license amendment request. Enclosed with this letter is the amended license. Please note that we could not remove the sites as requested in your letter dated March 8, 2005, because you have not submitted closeout surveys demonstrating that these sites do not contain any radioactive material or waste, and that they are free of contamination.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).
