From: David Culp, President and CEO  
Date: April 25, 2005  
Subject: Delegation of Authority

Mr. Ramsey, as Radiation Safety Officer, you are responsible for ensuring the safe use of radiation. You are responsible for managing the radiation protection program; identifying radiation protection problems; initiating, recommending, or providing corrective actions; verifying implementation of corrective actions; stopping unsafe activities; and ensuring compliance with regulations. You are hereby delegated the authority necessary to meet those responsibilities, including prohibiting the use of radioactive material by employees who do not meet the necessary requirements and shutting down operations where justified by radiation safety. You are required to notify management if staff do not cooperate and do not address radiation safety issues. In addition, you are free to raise issues with the Nuclear Regulatory Commission or Agreement State at anytime. It is estimated that you will spend 3 hours each quarter conducting radiation protection activities.

I accept the above responsibilities,
