The U.S. Nuclear Regulatory Commission's (NRC) Office of State and Tribal Programs (STP) recently briefed the Technical Assistants for the Commission regarding regulations and Agreement State compatibility. In preparing for the brief, STP staff developed a regulations status table and corresponding histogram based on the information contained in the State Regulation Status Data Sheets and information from recent Integrated Materials Performance Evaluation Program (IMPEP) reviews. Please note that this information is current as of March 10, 2005, and that there are States with rules currently under review in our office that do not appear on these documents.
