SUBJECT: ACKNOWLEDGMENT OF RECEIPT OF AMENDMENT REQUEST
DATED MAY 12, 2005 (TAC NO. L52662)

Dear Mr. Sepp:

We have received your request for amendment of Materials License SNM-33 transmitted by letter from Mr. Gordon M. Vytacil, Manager, Licensing/Quality Assurance, Westinghouse Hematite, dated May 12, 2005. Your request has been assigned Technical Assignment Control (TAC) No. L52662. Any future correspondence about this request should reference the TAC number.

We have completed the initial processing, which is an administrative review of your request for approval of changes to the organizational responsibilities stated in the license. No administrative deficiencies were identified during this initial review. However, it should be noted that a technical review may identify omissions in the submitted information.

It appears that your request is routine. Routine amendment actions are normally processed within 90 days, unless we find major deficiencies, or policy issues requiring central program office assistance.

In addition, a copy of your submittal has been forwarded to License Fee and Accounts Receivable Branch, Office of the Chief Financial Officer. They will contact you separately if the appropriate license fee has not been submitted for your request, or for billing if your request is subject to full cost recovery.

We will try to complete your request for approval of organization change of the license in a timely manner. Please direct any questions concerning your request to me at (301) 415-8580.

Sincerely,
