Mail Control No. 136973 Docket No. 03006021
Letter dated April 26, 2005, Rothman to Nicholson

Dear Mr. Nicholson:

I discovered two errors in the letter to you dated April 26th. On the first page, the year was incorrectly typed as 2004, and in the body of the letter I accidentally referred to building 64 instead of building 60. Building 64 was the subject of a recent decommissioning project at our Bristol Plant. Building 60 is the subject of the current amendment request. I am enclosing a corrected first page of the letter. Please remove and replace the first page of the previous letter.

In answer to some of the questions that you posed by e-mail:

1. The mailing address for the plant, according to our phonebook is:

Rohm and Haas Company
Philadelphia Plant
5000 Richmond Street
Philadelphia, PA 19137

2. The area of the Phila. Plant is probably best described as mixed residential/commercial. There are other plants nearby and the plant is next to residential areas as well. The plant is bounded by the Delaware River and the Frankford Creek. I have enclosed a diagram of the plant.

136973
NMSS/RGNI MATERIALS-002

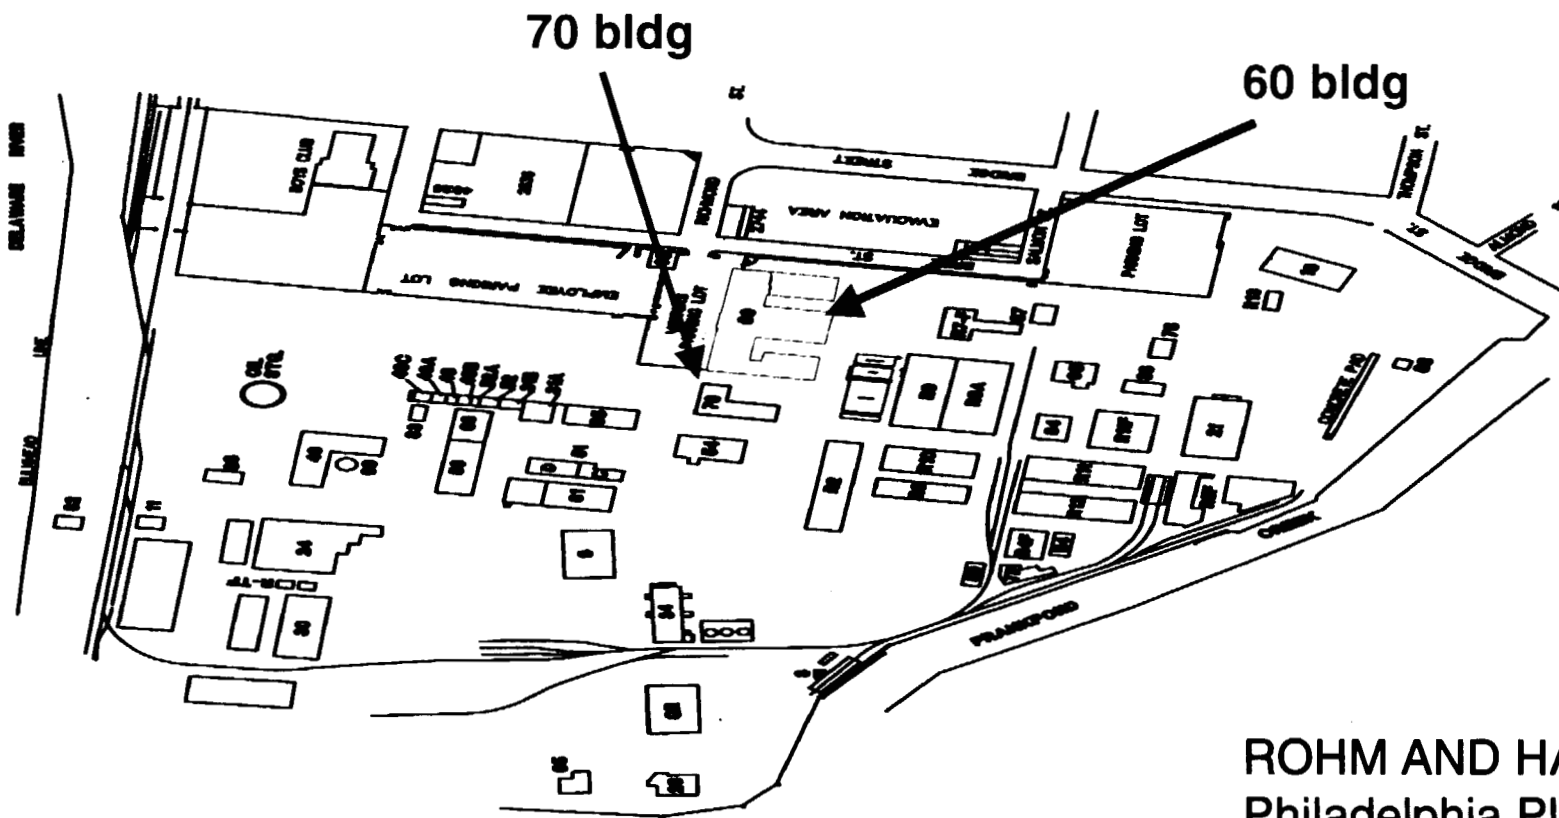

3. One of the former members of one of the analytical labs thought, and according to my records, the last lab there that used ECD's left around May 1995. ECD's were used in various labs in building 60 and then later moved to building 70, a small building adjacent.

I am still working on the answers to other questions you posed. I will respond when I have that information.

Sincerely,

A handwritten signature in cursive script that reads "Alan M. Rothman".

Alan M. Rothman, Ph.D.
Radiation Safety Officer
Spring House Technical Center
Rohm and Haas Company
