Docket No. 50-171

AUG 4 1960

Mr. Shelby T. Grey, Director  
Bureau of Program Planning and Appraisal  
Department of Health, Education, and Welfare  
Food and Drug Administration  
Washington 25, D. C.

Dear Mr. Grey:

This is to inform you that the Philadelphia Electric Company, 1000 Chestnut Street, Philadelphia 5, Pennsylvania, under Section 104.b of the Atomic Energy Act of 1954, as amended, has submitted an application for a license authorizing construction and operation of a 40 megawatt (electrical) helium-cooled, graphite-moderated nuclear reactor at Peach Bottom, York County, Pennsylvania. The earliest and latest completion dates are estimated to be July 1, 1963 and January 1, 1964, respectively.

You will be advised of action taken in this matter.
