APPLICATION FOR CONSTRUCTION PERMIT AND OPERATING LICENSE,
PHILADELPHIA ELECTRIC COMPANY, DOCKET NO. 50-171

SYMBOL: LRL:NDM

Original Signed by R. L. Kirk

The Philadelphia Electric Company, 1000 Chestnut Street, Philadelphia 5, Pennsylvania, has submitted an application for a license to construct and operate a 40 megawatt (electrical) helium-cooled, graphite-moderated nuclear reactor at Peach Bottom, York County, Pennsylvania. The earliest and latest completion dates are estimated to be July 1, 1963 and January 1, 1964, respectively.

Transmitted herewith are "Part A - General Information" and "Part B, Volumes I and II - Preliminary Hazards Summary Report" of the subject application. Please review the application and give us your comments as to the reasonableness of the stated fuel requirement for a reactor of this type and power..

The return of the application, after you have completed your review, will be appreciated.

Enclosures:

1. Part A of application
2. Part B, Volumes I and II of application
