

Douglas E. George, Acting Director
Division of Nuclear Materials Management

AUG 4 1960

Lyall Johnson, Chief, Licensing Branch
Division of Licensing and Regulation

ALLOCATION OF SPECIAL NUCLEAR MATERIAL TO PHILADELPHIA ELECTRIC
COMPANY, DOCKET NO. 50-171

SYMBOL: LRL:MDM

Transmitted herewith is "Part A - General Information" of
the application from Philadelphia Electric Company for a
license to construct and operate a 40 megawatt (electrical)
nuclear reactor at Peach Bottom, York County, Pennsylvania.
Exhibit "F" of "Part A" comprises the applicant's estimated
schedule of transfers of special nuclear material.

Please provide us with the computation for an allocation
to be made to this applicant in terms of contained U-235
and ETP and verify the schedule of receipts and transfers
of special nuclear material which was submitted by the
applicant.

Please return the document transmitted herewith with your
reply.

Enclosure:
Part A of application
