APPLICATION FOR CONSTRUCTION PERMIT AND OPERATING LICENSE,
PHILADELPHIA ELECTRIC COMPANY, DOCKET NO. 50-171

SYMBOL: LRL:NDM

Original Signed by R. L. Kirk

This is to inform you that the Philadelphia Electric Company, 1000 Chestnut Street, Philadelphia 5, Pennsylvania, has submitted an application for a license to construct and operate a 40 megawatt (electrical) helium-cooled, graphite-moderated nuclear reactor at Peach Bottom, York County, Pennsylvania. The earliest and latest completion dates are estimated to be July 1, 1963 and January 1, 1964, respectively.

The following are being notified of the filing of this application for license:

- a. The JCAE is being informed by appropriate letter to its Executive Director.
- b. The Department of Health, Education, and Welfare is being informed by appropriate letter.
- c. Notice of the filing of the application is being submitted for publication in the Federal Register.
- d. Appropriate state officials are being informed of this pending application.
