

DL&R:
Rocket No. 50-171

NOV 7 1960

Honorable David L. Lawrence
Governor, Commonwealth of Pennsylvania
Harrisburg, Pennsylvania

Dear Governor Lawrence:

In our letter of October 12, 1960 we transmitted to you a copy of "Amendment No. 1 to Application of Philadelphia Electric Company for Construction Permit and Class 104 License". Certain designated parts of the amendment, containing potentially information on control rods and control rod drive systems, were requested by the applicant to be withheld from public inspection pending the filing of a patent application. The patent application has now been filed and accordingly, the request to withhold from public inspection is now withdrawn.

By copy of this letter, we are advising the Department of Labor and Industry, the Pennsylvania Department of Health and the Bureau of Environmental Health of this action.

Sincerely yours,

Distribution

G. W. Morgan
