April 21, 1960

Mr. John M. McCone, Chairman  
Atomic Energy Commission  
Washington, D. C.

Dear Mr. McCone:

Recently I wrote you at the request of our Governor of our interest in keeping abreast of the atomic energy development in southern Jersey.

*+ Dr. Woodruff  
4/27 for  
reply*

At this time we would also like to tell of our interest in the closeby plant which is mentioned as a possible development by the Philadelphia Electric Company and Associates, in southeastern York County, Pa., on the Susquehanna River.

I hope to have some word on both of our letters in the near future. Thanking you, we remain

Very respectfully,

*C. B. Shaffer*
