MEMORANDUM for H. L. Price, Director
Division of Licensing and Regulation

Through: General Manager

In reading Dr. Wilson's memorandum of November 30 to Mr. McCone, re the ESUPRA project, I note a paragraph to the effect that Mr. Ginna was under the impression that things were proceeding satisfactorily in connection with Peach Bottom. On Saturday I heard a rumor that the HEB report raises many serious legal/policy questions. I wonder if it would not be wise for this report to be discussed with the Commission informally before the ACRS renders its advice, as Commission action may well change the frame of reference for their consideration of the case.
