

Docket No. 50-171

DL&R:MMF

OCT 5 1961

Dr. Charles L. Wilbar, Jr.
Secretary of Health
Pennsylvania Department of Health
State Capitol
Health & Welfare Building
Harrisburg, Pennsylvania

Dear Dr. Wilbar:

By copy of a letter dated August 11, 1961 to Governor Lawrence, we informed you of the filing by Philadelphia Electric Company of Amendment No. 2 to its application for a Class 104 license for a proposed 10,000 Kw atomic power station to be located at Peach Bottom, Pennsylvania.

The technical staff of the Division of Licensing and Regulation is now preparing its analysis of the safety considerations involved with this proposed facility and the project will also be reviewed by the AEC's Advisory Committee on Reactor Safeguards at its next meeting. Both the staff analysis and the ACRS report will be made available to the public prior to a date to be set for a formal hearing to consider issuance of a construction permit for this project.

Meanwhile if you or members of your staff have any questions about any aspect of our review of the public health and safety considerations involved in the Philadelphia Electric Company application, please feel free to contact this office.

Docket No. 53-171
DL&R:ERF

Mr. William H. Bayliff
Executive Secretary
Board of Natural Resources
State Office Building
Annapolis, Maryland

Dear Mr. Bayliff:

This is to inform you of the filing by Philadelphia Electric Company of Amendment No. 2 to its application for a Class 104 license for a proposed 40,000 Kw atomic power station to be located at Peach Bottom, Pennsylvania. A copy of this amendment was recently forwarded to Governor Taves.

The technical staff of the Division of Licensing and Regulation is now preparing its analysis of the safety considerations involved with this proposed facility and the project will also be reviewed by the AEC's Advisory Committee on Reactor Safeguards at its next meeting. Both the staff analysis and the ACRS report will be made available to the public prior to a date to be set for a formal hearing to consider issuance of a construction permit for this project.

Meanwhile if any members of the Board of Natural Resources or member agencies of the Board have any questions about any aspect of our review of the public health and safety considerations involved in the Philadelphia Electric Company application, please feel free to contact this office.
