THE MARTIN COMPANY

Baltimore 3, Maryland

November 10, 1961

Dr. Martin B. Biles, Chief
Test and Power Reactor Safety Branch
Division of Licensing and Regulation
U. S. Atomic Energy Commission
Washington 25, D. C.

Dear Dr. Biles:

Subsequent to our conversation yesterday concerning the Peach Bottom reactor, I have thought of some additional public officials whom it might be appropriate to invite to the informal meeting planned for November 29. They are:

Mr. Leroy V. Scheurholz,
Baltimore City Water Engineer
3001 Druid Park Drive
Baltimore 15, Maryland

^{Pass} Mr. D. McNabb, President
Board of County Commissioners
of Harford County
Bel Air, Maryland

Mr. John R. Dickerson, President
Board of County Commissioners
of Cecil County
Elkton, Maryland

Mr. Russell McCain
Executive Assistant
to the Governor
Annapolis, Maryland

Mr. Scheurholz's interest is obvious. Messrs. Dickerson and McNabb are from the Maryland counties closest to Peach Bottom. Maryland does not have a formally established "State Coordinator" for atomic energy, but Mr. McCain has been discharging that function as needed.

I am enclosing a copy of the membership roster of the Governor's Advisory Committee for your information.

Sincerely,

MARTIN-NUCLEAR
A Division of Martin-Marietta
Corporation
