Mr. R. Lowenstein,  
Director, Division of  
Licensing and Regulation  
U. S. Atomic Energy Commission  
Washington 25, D. C.

Dear Mr. Lowenstein:

I have forwarded to you today under separate cover, via first class mail, three original and fifty copies of the "Fourth Semi-Annual Report of Philadelphia Electric Company on the Peach Bottom Atomic Power Station", submitted pursuant to paragraph E of Philadelphia Electric Company's Construction Permit No. CPPER-12. *See report file*

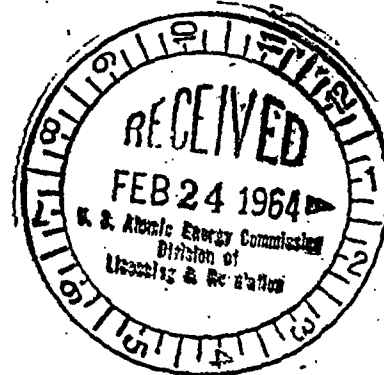

As you know, delays in the delivery of the reactor vessel and the steam generators to the site have raised uncertainties in the construction schedule of the plant. Now that the reactor vessel has been delivered to the site and the steam generators are scheduled for delivery shortly, we are hopeful for an early resolution of the construction schedule.

Very truly yours,

*Vincent P. McDevitt*
