REVIEW OF FINANCIAL QUALIFICATIONS - PHILADELPHIA ELECTRIC COMPANY,
DOCKET NO. 50-171

Original Signed by

S. Levine

DRL:ERF

Reference is made to your memorandum of December 31, 1964, commenting on the financial qualifications of the Philadelphia Electric Company to operate the Peach Bottom Reactor up to 1 Mwt and to assume contractual responsibility for the payment of Commission charges for use, consumption, or loss of special nuclear material for an eighteen month period.

Philadelphia Electric Company has submitted Amendment No. 10 to the application which includes a statement regarding the estimated monthly operating costs for the Peach Bottom Atomic Power Station. It is requested that you review and evaluate this information and update your previous comments.
