In Re: In the Matter of  
Philadelphia Electric Company  
Docket No. 50-171

Dear Mr. Doan:

I am forwarding under separate cover for filing with the Commission three original and nineteen copies of Amendment No. 13 to the Application in the above proceeding, requesting the issuance of a Provisional Operating License authorizing operation of the Peach Bottom Atomic Power Station at power levels up to 115 Mw (thermal).

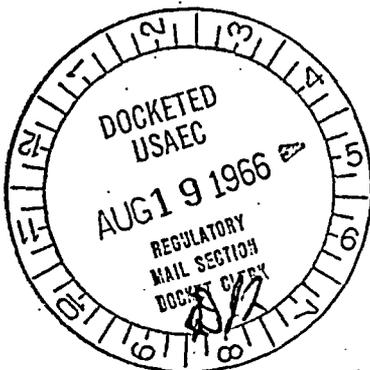

The repairs to the steam generators are expected to be completed by late September and, accordingly, we would sincerely appreciate a hearing before the Advisory Committee on Reactor Safeguards in early October.

The filing includes <sup>see Reports file</sup> sixty copies of supporting technical data entitled "Supplemental Technical Information for Operation at 115 Mw(t)."

Very truly yours,

*Vincent P. McDevitt*
