In the Matter of : Docket No. 50-171
PHILADELPHIA ELECTRIC COMPANY :
:

APPLICATION FOR EXTENSION
OF CONSTRUCTION PERMIT
COMPLETION DATE

Philadelphia Electric Company (Applicant) hereby applies for an extension of the latest date for the completion of the facility specified in Construction Permit No. CPPR-12 from December 31, 1964 to June 30, 1965.

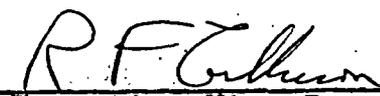

Construction of the Peach Bottom Atomic Power Station is essentially completed, with only such work items as painting, clean-up and occasional modification of equipment already installed presently being performed.

Pre-operational testing of systems and equipment is underway but is not expected to be completed for the loading of fuel until approximately February 1, 1965. Applicant therefore requests that the date for the completion of the facility be extended for a period of six months so as to include any time necessary for the completion of pre-operational testing.

Respectfully Submitted
