NRR-03-DPV-01 Duane Arnold Reactor Building Crane system	06/18/03 Note 1	06/25/03	06/30/03	Note 2						

Comments:

DPVs NRR-02-DPV-03, -04, and -05 Note 1: These DPVs were opened to address concerns related to the language in proposed 10 CFR 50.69 (Option 2) as posted on the NRC webpage on August 2, 2002. The three DPVs were sent by NRR front office to the Commission for their consideration along with the proposed rulemaking (SECY 02-0176) and a DPV panel was determined to be inappropriate at this time. A letter dated October 10, 2002, was submitted to all three DPV submitters acknowledging that decision. The submitters agreed with this approach. The submitters either attended or participated in several meetings with Commissioners' TAs and EDO management in October 2002, and gave a presentation to the Commissioners themselves at a briefing on November 21, 2002. The Commission issued a final SRM on March 28, 2003, which approved publishing the proposed rule and draft regulatory guidance for comment. At Commission direction, questions designed to solicit stakeholder input on some of the issues raised in the DPV were included in the statement of considerations. The public comment period for the proposed rulemaking ends July 30, 2003. NRR management met with the three DPV submitters on May 1, 2003. The Office Director will meet with the DPV submitters again and render his decision by July 16, 2003.

DPV NRR-03-DPV-01 Note 1: This DPV was transferred to NRR from Region III by memo dated June 18, 2003, from James Caldwell, Deputy RA, to Richard Borchardt, IRR/ADIP. The original DPV was submitted to Region III on June 17, 2003. The DPV concerns an SER written by NRR to accompany a license condition amendment related to the single-failure-proof status of the Duane Arnold Energy Center reactor building crane system. The Office is in the early stages of establishing the ad hoc DPV panel assigned to this DPV.

Note 2: The filer of this DPV declined to specify a list of preferences for the third DPV panel member. This third member will be selected by the panel chair in accordance with MD 0.159.
