RE: Notice of Violation
Inspection 03036544/2005001
License No. 45-30905-01

Dear Mr. Kinneman:

This is in response to your letter dated April 21, 2005 regarding the inspection. My response and action taken are given below:

Physical inventory: We have not used this machine to date since we received it. The equipment is in the original package and therefore we have not done the inventory. Now we have done the inventory and keeping a record of it in our office.

Completion of the Safety Training Course: One of my engineer and I registered for this course about six months back. I was sick on that day. I could not attend the Safety Seminar. But my engineer attended it as planned and he got the certification. I have registered to take this safety training on June 8, 2005 at Fredricks Maryland.

I am sorry about all of this. We will be in full compliance with your regulation after June 8, 2005. We will not use the equipment until that time.

Thank you,

Sincerely,

T. Sriskandarajah
