SUBJECT: ACKNOWLEDGEMENT OF CORRESPONDENCE
(Letter Dated 3/4/2005)

Dear Ralph L. Freed, CPG, RSO:

In response to your request, we have completed the initial processing, which is an administrative review of your application for a(n):

New License Amendment Termination

No Administrative deficiencies were identified during this initial review. However, it should be noted that a technical review may identify omissions in the submitted information.

Please note that the NRC issues license numbers based on the mailing address. Since your mailing address has changed to Michigan, it will be necessary to terminate License No. 13-26062-01 and concurrently issue a new license with a new license #. This is an administrative requirement.

It appears that your request is routine (see 1-2 below, as applicable).

1. New and amendment actions are normally processed within 90 days, unless we find major deficiencies, or policy issues requiring central program office assistance.
2. Termination actions are normally processed within 90 days, unless confirmatory surveys following decontamination/decommissioning activities are involved.

We will try to complete your request as soon as practicable. Any correspondence about this request should reference the control number(s). Please direct any questions concerning your request to the Materials Licensing Branch at (630) 829-9887.
