| <p><u>Summary:</u> I left a message on the receptionist's voice-mail for an individual to get back in touch with me about the license for the use of radioactive material.</p> <p>13:45 I spoke with the receptionist. She stated that Neil Smarte does not work at the facility. I requested that I speak with the nuclear medicine technologist. The receptionist stated that the technologist was not working there today. The receptionist took my name and phone number when I requested that I speak with Robert Cunnion, M.D., President.</p> <p>14:15 Dr. Cunnion returned my phone call. I questioned him as to the status of Mr. Smarte. Dr. Cunnion stated that Mr. Smarte acts as their Consultant/RSO and is not a full-time employee. I asked Dr. Cunnion if he was aware if a renewal application had been sent in to the NRC Region I office. Dr. Cunnion indicated that he did not know and that he would ask around. I reminded Dr. Cunnion that the license has an expiration date of June 30, 2005 and that in order to continue licensed activities beyond that date, a renewal application would have to be received prior to June 30. Dr. Cunnion indicated that he understood.</p> | | |
