Subject: Additional Information Needed on Application			
<p>Summary:</p> <p>I talked to Mr. Gargaro as to the reason Ms. Mason was stated on the application but no credentials or responsibility was assigned. He stated that he believed she was not needed and was not being requested as an authorized user.</p> <p>I asked what type of instrument and probe was instrument #2, but he didn't know.</p> <p>I then discussed that this license was for teaching and training of students and not a medical license. Thus our guidelines are now to not list the radionuclides as 10 CFR 35.100, 10 CFR 35.200 or 10 CFR 35.11. Each radionuclide, form, and quantity would need to be listed.</p> <p>I then stated that I would follow up with a letter, requesting more information detailing this information. He stated that he would appreciate getting the information e-mailed to him.</p>			
Action Required/Taken: I followed up with a request for more information letter.
