<p><u>Summary:</u> I spoke with Mr. West about the licensee's May 19, 2005 amendment request. I asked Mr. West if the licensee had given him anything in writing indicating that he could sign documents requesting changes in the license since he was not a member of senior management. Mr. West stated that he was the Radiation Safety Officer but not a member of senior management. I told him that a letter could be drafted by senior management indicating that they have reviewed the May 19<sup>th</sup> letter and agree with its contents and state that, in the future, Mr. West could have signature authority for making changes in the license. I then requested information on what Murat Karatepe, M.D. was to be authorized for on the license. Mr. West stated that he would look into the matter and send a reply next week.</p>
