Subject: Final Status Survey		
<p>I spoke to Alan regarding his letter dated May 31, 2005 replying to my request of May 24, 2005 for additional information. The Philadelphia Plant was first licensed by the AEC in December 1956. The initial amendment request to remove this site included information of the use of licensed material back to 1974. I informed Alan he would have to either gather more information regarding what licensed material was used in what areas of the Philadelphia Plant prior to 1974 or perform a more extensive survey. He stated he had visited the site on Friday June 17, 2005 with a R&H retiree who had worked with licensed material at the plant starting in 1958. This person was able to provide information on the use of licensed material at the plant for the period in question. Alan conducted surveys of the areas and is preparing to draft a letter to me including this recently discovered information.</p>		
Action Required/Taken: awaiting reply from licensee w/ additional information and surveys regarding use of licensed material at the Philadelphia Plant to incorporate into EA
