Subject: Phone call summary with USEC Inc.

Brian,

Last Thursday (6/16) at about 2:00 PM, I spoke to Pete Miner of USEC Inc. (USEC) concerning USEC's RAI responses dealing with commitments to codes and standards. I indicated that several USEC commitments to codes and standards were open ended such as "USEC may apply Standard X to its Program Y." I said that USEC needs to provide definite (**shall/will**) commitments to codes and standards. I also told Pete that USEC should propose a license condition requiring it to obtain prior NRC approval before it makes changes to its commitments to any design-related codes and standards.

Pete acknowledged the comments.

Yawar
