Attention: Mr. Timothy Drawbridge

SUBJECT: CLOSEOUT OF JCN NO. J3017, RADIOLOGICAL EMERGENCY ON-SHIFT
AND AUGMENTATION STAFFING GUIDANCE FOR NUCLEAR POWER
PLANTS

Dear Mr. Holland:

Attached is Nuclear Regulatory Commission (NRC) Form 173, Standard Order for DOE Work, documenting closeout of JCN No. J3017, Radiological On-Shift and Augmentation Staffing Guidance for Nuclear Power Plants. This form is being submitted in accordance with NRC Management Directive 11.7, "NRC Procedures for Placement and Monitoring of Work with the Department of Energy."

The subject contract was terminated in 2004 due to unexpected changes in the regulatory environment, which could have impacted the work being performed. Though the contract was not completed by NRC's direction, I would like to commend Mr. James Higgins and the whole project team at Brookhaven National Laboratories (BNL) for performing exceptionally well on the tasks supporting the project. Of special note, was the preparation of the function/task matrix. I am sure that it will be a valuable resource in the future.

The NRC has received and accepted all related billings and deliverables. Please indicate DOE acceptance by signing and returning the enclosed NRC Form 173 to Ms. Debra Schneck, Project Manager, Emergency Preparedness Directorate, Division of Preparedness and Response, Office of Nuclear Security and Incident Response, U.S. Nuclear Regulatory Commission, MS O-6H2, Washington, DC 20555-0001, with a copy provided to Ms. Tanya Champion (MS O-5A2).

Mr. Michael D. Holland
