June 20, 2005

Subject: Alternative Procedure for Item 7, Appendix C, Volume 5
Control Number: 136663

Lucent Technologies has designated Richard Quick, CIH, CSP as the RSO. Richard has a BS degree from Rutgers University in Environmental Science and a MS degree from Temple University in Occupational Safety and Health. He has completed an Ionizing Radiation course at Rutgers University. Richard has been employed by AT&T/Lucent for ~18 years and is currently the Lucent Corporate EH&S Health and Safety Senior Manager. Lucent Technologies will also be utilizing the outside consulting services of John Riley to support Richard Quick in his role as the RSO. John is a former Lucent employee and has extensive experience with the Ionizing Radiation Program at Lucent. John has successfully completed training described in Appendix G in NUREG-1556, Volume 5, dated October 1998.

In addition, the two irradiators will remain in storage and not in use until Jack Riley trains Richard Quick as described in Appendix G. After Richard successfully completes this training, a certification letter will be provided to Sattar Lodhi. Until that time, the irradiators will not be permitted to be operational.
