This is to document our telephone conversation today. The fax you submitted today clearly documents Adam Tazi's degree and one year of full-time training in therapeutic radiologic physics. It also documents 5-6 months of full time work experience under the supervision of a medical physicist at a medical institution that includes the tasks listed in the regulation, however 10 CFR 35.961(c) requires a total of one year of full-time work experience.

Please provide documentation of an additional 6-7 months of full time supervised work experience within the next 30 days. If this is not possible, it may be necessary for you to void this request and reapply after Dr. Tazi obtains the required additional work experience.

You may fax your response to my attention at 610-337-5269, referencing mail control 137036. Please leave a voicemail or e-mail message to alert me when your fax is sent.

Thank you for your help. You may e-mail me with any questions.
