

June 22, 2005

Mr. Roger Shingelton  
Environmental Technologies, Inc.  
219 Frontage Road  
Pacific, WA 98047

SUBJECT: TERMINATION OF QUALITY ASSURANCE PROGRAM APPROVAL FOR  
RADIOACTIVE MATERIAL PACKAGES NO. 0810, REVISION 2

Dear Mr. Shingelton,

The quality assurance (QA) program approval that U. S. Nuclear Regulatory Commission (NRC) previously provided to you, under Docket No. 71-0810, has expired. Based on the expired status of your NRC QA program approval, the NRC hereby terminates your NRC QA program approval under Docket No. 71-0810.

Please note that Part 71 has no requirement or provision for NRC approval of fabricator QA programs. The only QA program approvals required by Part 71 are for licensees and applicants for Certificates of Compliance (CoCs). Although a small number of Part 71 QA program approvals were previously issued to fabricator entities, this practice has been discontinued. Fabrication activities for NRC-certified packagings must be performed in accordance with a CoC holder's QA program.

If you have any questions, please contact Frank Gee at 301-415-7414.

Sincerely,

/RA/

Mary Jane Ross-Lee, Chief
