APR 04 2005

John B. Baird, M.D.
Radiation Safety Officer
MCS-ODS, LLC
1605 East Broadway
Suite 400
Columbia, MO 65201

Dear Dr. Baird:

Enclosed is Amendment No. 05 to your NRC Material License No. 24-32061-01 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

This amendment names James T. Elliott, M.D. as an authorized user on your license. I noted that your letter received January 18, 2005, characterized your request as a notification letter under 10 CFR 35.13 and 35.14.

On the contrary, your letter did not meet the requirements as a notification under 10 CFR 35.13 and 35.14 because Dr. Elliott qualified as an authorized user under 10 CFR 35.290(b). In order to qualify as an authorized user for a notification under 10 CFR 35.13 and 35.14, an authorized user must meet the requirements in 10 CFR 35.290(a).

Please also note that I deleted Condition Nos. 13., 14., and 15. as they appeared on Amendment No. 04. This was done because all of your licensed materials are now regulated by 10 CFR Part 35, which includes the same requirements as the now-deleted Conditions.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The enclosed license document is exempt from public disclosure in accordance with 10 CFR 2.390, because its disclosure to unauthorized individuals could present a security vulnerability.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

J. Baird

2

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

A handwritten signature in cursive script that reads "Colleen Carol Casey".
