Comments:

1) The February 2004 technical Monthly Letter Status Report (MLSR) and associated fiscal MLSR was provided in a timely manner.

6) At a March 16th meeting between the NRC, DOE and NMMSS sub-contractor, the NRC was verbally informed by the sub-contractor that they expect that the Task-8 efforts will not be completed with the appropriated funds. The subcontractor also noted that they forecast that all Task-8 funding will be spent in July. The NRC technical project manager suggested to the sub-contractor that they should ensure that the DOE contracting officer is aware of the sub-contractors views. The NRC representative also noted that DOE will formally notify the NRC if the Task-8 work can not be completed within the established budget and time period.

We ask that DOE immediately notify us if it determines that there are fiscal or delivery problems involving Task-8 work.
