Dear Mr. Small:

Enclosed is Amendment No. 16 to your NRC Material License No. 21-26707-01MD, in accordance with your request by letter dated February 28, 2005. This amendment ties down in License Condition 19. D., those documents that notify the NRC of the name change of Amersham plc (parent Company of medi-Physics, Inc., dba GE Healthcare) to "GE Healthcare Ltd." It does not involve any other changes to the licensed program or the entity directly possessing the NRC license. Please note that the changes made to your license are printed in **bold** font.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The enclosed license document is exempt from public disclosure in accordance with 10 CFR 2.390, because its disclosure to unauthorized individuals could present a security vulnerability."

Sincerely,
