

July 18, 2005

Mr. Mike Mulligan
P.O. Box 161
5 Wood Lawn Lane
Hinsdale, NH 03451

Dear Mr. Mulligan:

Your e-mail dated June 5, 2005, addressed to Chairman Nils Diaz of the Nuclear Regulatory Commission (NRC) has been referred to the Office of Nuclear Reactor Regulation pursuant to Section 2.206 of Title 10 of the *Code of Federal Regulations* (10 CFR).

In your e-mail you requested: (1) that your petition be entered "in all of Exelon's dockets - especially in Byron's Adams," (2) "that all Exelon nuclear plants be shutdown after 6 months -until such time as Exelon provides a complete historical report on what went wrong with the nuclear industry from the 1960's through the 1990's," and (3) "that Exelon be prevented from participating in the design and construction of the next generation of nuclear power plants -until they provide a complete and truthful historical report on what happened to the nuclear industry prior to 2000."

As requested, your petition has been entered in the NRC Agency Document and Management System (ADAMS) under ADAMS Accession No. ML051680082 and may be viewed on the NRC public Web site, www.nrc.gov.

In accordance with NRC Management Directive 8.11, "Review Process for 10 CFR 2.206 Petitions," your petition was reviewed by our Petition Review Board (PRB) to determine whether the petition met the criteria for consideration under 10 CFR 2.206. The staff has concluded that your petition does not meet the criteria for consideration under 10 CFR 2.206 because the petition is general, does not provide sufficient facts to support the petition, and does not identify specific safety concerns or violations of NRC regulations. This conclusion was conveyed to you in a telephone conversation with Mr. George Dick of my staff on June 24, 2005. During the telephone conversation Mr. Dick discussed with you your general concerns regarding the nuclear industry and offered you the opportunity to address the PRB to provide any relevant additional information and support for your request. You declined the offer.

M. Mulligan

Your e-mail also contained statements regarding perceived failures on the part of the NRC and the potential effect on nuclear plant and agency employees. Therefore, your e-mail will be forwarded to the NRC Office of the Inspector General for further review.

Thank you for bringing your concerns to the attention of the NRC.

Sincerely,
/RA/

J. E. Dyer, Director
Office of Nuclear Reactor Regulation
