According to Dr. Pickering, the sealed sources were transferred to a Bionomics for disposal on June 13, 2005. Region I informed Dr. Pickering that WMH would need to provide documentation of the receipt of those materials by Bionomics. Dr. Pickering also mentioned that Drexel University had RAM stored at their campus. Region I stated that documentation would need to be provided for that disposal as well. Region I informed Dr. Pickering that we would need close-out surveys for the areas (WMH and Drexel) where the RAM was stored prior to termination. With regards to the special nuclear materials license, a letter signed by a member of management agreeing to the transfer of License No. SNM-1369 to Drexel University. Region I informed Dr. Pickering that K. Lambert was working on the referenced letter and would be forwarding it to her in the near future for WMH management's signature.</p> </td> </tr> <tr> <td style="vertical-align: top;">Action Required:</td> <td>Wait for information</td> </tr> </table>			Name of Licensee:	Women's Medical Hospital	Name of Participant(s):	Harriet Franklin (Attorney for WMH), Nancy Pickering, M.D. (WMH), P.
