Attn: Bill Reichold

Here is the information applying to the Troxler 3430. I informed you that we are disposing of the Troxler. *The new licensee is* Harry Seaman from the Seaman Nuclear Corporation. Attached information shows the companies address as well as phone and fax. Their license number is as follows. 079-1257-01, at this time the Troxler 3430, Serial number 29845 is the only radionuclide that we have that needs to be licensed through the NRC. All other gauges are licensed through the state of Michigan. Therefore we no longer need the NRC licensing. Also attached to this statement is a current leak test performed on the Troxler 3430. This gauge now nor never had a leak, same with the other gauges that we currently own. In your documents you stated that we received a Troxler 3450. We never received the Troxler 3450. Those records are from my knowledge false. Thank you for all your help Bill. I appreciate it.
