United States Nuclear Regulatory Commission
Region 1
475 Allendale Road
King of Prussia, PA 19406-1415

Dear Sirs:

Some question was raised during the visit this week of your inspector about the exact nomenclature of the sealed source covered by our two licenses 06-16699-02G and 06-16699-01. The proper nomenclature is:

AMC66 Am-241 low energy photon
 Activity: 100 mCi nominal
 Output and tolerance: 53 x E6 photons/sec/ster +/- 1056
 Capsule X11/1 SPC: GB/4/8-85
 Model AMC.D3 ISO/ANSI:C66544

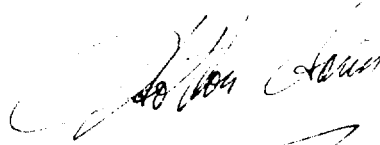

This nomenclature has been verified with the manufacturer, which is:
AEA Technology QSA, Inc.
40 North Avenue
Burlington, MA 01803

and a copy of their quotation is enclosed.

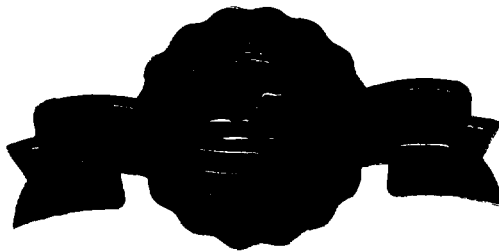

We would appreciate it if you would make this change on the records of both of our licenses.

Thank you very much.

Very best regards,

Holton Harris
Radiation Safety Officer
