RE: Renewal of RAM License 21-24828-01MD

Dear Mr. Hueter:

Pursuant to a telephone conversation on 3 May 2004, concerning the department's letter of 18 April 2003 received by this office, please allow this letter serve as notice that the change of control as noted in the letter submitted to your office on 12 February 2004 was completed on 8 April 2004.

No change of name has taken place at this time, as referenced in the letter, therefore no change need to be made to any of the licenses referenced in the 12 February 2004 letter.

If and when additional changes are made an amendment will be submitted for each license referenced in the 12 February 2004 correspondence.

Also, included is an amendment for the Detroit facility requesting the addition of Greg Parker, R.Ph as an authorized user. This information was submitted previously and signed by S. Pabon; as such Amersham Health is requesting a verbal okay for Mr. Parker to assume duties as an authorized nuclear pharmacist prior to the written statement being received at the Detroit facility.

Should you have additional questions or require further clarification, please contact me at (609) 514-6647.

Sincerely,

Richard A. Hughes
Director, Pharmacy Regulatory Assurance
