Ref: Letter E&L-044-2005 from PL Paquin, Duratek, to Director, SFPO, US NRC, Dated June 9, 2006

Dear Sirs:

SUBJ: APPLICATION FOR “-96” DESIGNATION FOR UX-30 PACKAGE CERTIFICATE NO. 9196, SUPPLEMENTAL SUBMITTAL

Our June 9th letter (Referenced) included the application for the “-96” designation for the UX-30 overpack. The SARs in the “-96” application contained several omitted pages or page numbering errors that are being corrected with this supplemental submittal. The following table is a directory of the changes that we request you make to the SARs enclosed with our June 9th application:

Remove These Pages from June 9 th Submittal	Insert These pages from This Submittal
Appendix 4 Proprietary Version of SAR	
--	2.10.5 – 14 thru –17
--	8-1 and 8-2
Second Page 8-3 (located after page 8-5)	--
Table of Contents, Page iii	Table of Contents, Page iii
Appendix 5 Non-Proprietary Version of SAR	
Second Page 8-3 (located after page 8-5)	--
Table of Contents, Page iii	Table of Contents, Page iii

The new pages referenced in the above table that are to be inserted in the SARs are included with this supplemental submittal as “Attachment 4” and “Attachment 5” to correspond to the same Attachment numbers used in our June 9th submittal.

The information included in Attachment 4 of this supplemental submittal is intended to be placed in the Attachment 4 of our June 9th submittal, which is the proprietary version of the UX-30 SAR. The proprietary version of the SAR contains information proprietary to Duratek as attested in the affidavit in Attachment 3 of our June 9th submittal. Consequently, the information in the Attachment 4 of this submittal is proprietary to Duratek

We plan to perform a thorough re-review of both versions of the SAR enclosed with our June 9th submittal, and will make a second supplemental submittal with additional changes pages if necessary. This will be completed within a week.

If there are any questions on this application, please contact Charles Witt at (803)758-1890.

Sincerely,

Patrick L. Paquin
General Manger, Licensing and Engineering

Attachments (3 copies each):
