SUBJECT: WATERBURY HOSPITAL HEALTH CENTER, LICENSE AMENDMENT,
CONTROL NO. 136851

Dear Mr. Tobin:

This refers to your April 5, 2005, license amendment request. Enclosed with this letter is the amended license.

Although we amended your license as you requested, please note that based on the information that you provided in your April 5, 2005, license amendment request, we have opened an inspection to evaluate the adequacy of your transfer of a specifically licensed Varian Clinac 4/100 linear accelerator containing depleted uranium to be held under a General License by a company in Florida (Florida Veterinary Specialists, 3000 Busch Lake Blvd, Tampa, FL 33614). Once we gather additional information, we will evaluate this transfer, and advise you of our findings at a later date.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are available at the NRC web site at <http://www.nrc.gov/materials/miau/mat-toolkits.html> and <http://www.nrc.gov/who-we-are/governing-laws.html> or by contacting the Government Printing Office (GPO) toll-free at 1-888-293-6498.
