MEETING NOTICE

Meeting: NRC Workshop on proposed Inspection Procedure revisions for Fuel Facility Inspections.

Date and Time: August 4, 2005; 7:30 am to 5:00 pm

Location: U.S. Nuclear Regulatory Commission (NRC)
Main Conference Room, 24th Floor
61 Forsyth Street, SW
Atlanta, GA 30303

Purpose: The workshop is to discuss revised fuel facility inspection procedures which are being revised to incorporate the requirements of Subpart H to Part 70 including licensee's Integrated Safety Analyses. The draft procedure revisions also remove unnecessary duplication of inspection effort. The procedures may be accessed at ADAMS accession no: ML051810402.

Participants: NRC staff, licensees, applicants, industry and members of the public are expected to attend. The workshop is open to the public and there is no registration fee. Please notify the contact person in advance that you are planning to attend.

Contact: Thomas Decker (404) 562-4721/ trd@nrc.gov

Category: This is a Category 3 Meeting. The public is invited to participate in this workshop by providing comments and asking questions throughout the meeting. NRC meetings are open for interested members of the public to attend pursuant to the "Enhanced Public Participation in NRC Meetings; Policy statement," 67 *Federal Register* 36920, May 28, 2002. The policy statement may be found on the NRC website, www.nrc.gov, and contains information regarding visitors and security.

Attachment: Preliminary Agenda

**PRELIMINARY AGENDA FOR NRC
Workshop on Fuel Facility
Inspection Procedure Revision
U. S. Nuclear Regulatory Commission
61 Forsyth Street, 24th Floor
Main Conference Room
Atlanta, GA 30303
August 4, 2005**

Purpose: This Workshop is sponsored by the Region II Division of Fuel Facility Inspection. The Workshop is being held to provide an opportunity for stakeholders to interact with the NRC staff regarding a revision to the fuel facility inspection procedures. Time has been made available in the agenda for discussion of other related items. Participants are encouraged to inform the NRC, if possible, prior to the meeting of comments or issues planned to be discussed in order to facilitate a more productive exchange during the Workshop.

Objective: The Workshop is both intended to inform industry stakeholders of the revision to the fuel facility inspection procedures as well as to solicit comments.

Process: The NRC staff will discuss each revised procedure, address previously provided comments, and lead expanded discussions if appropriate. Also scheduled is a discussion of proposed Questions and Answers, (Q&As) developed as a result of a number of issues identified during routine inspections.

7:30 a.m. Check in for registration at the RII Reception area, 24th floor.

8:00 a.m. Welcome, Purpose of the Workshop, Agenda, and discussion process

8:15 a.m. NRC general outline of changes to the inspection procedures

8:45 a.m. Discussion of individual procedures

[Time allocated to discussion of each individual procedure is highly dependent on the topics of most interest. This should be reflected in the number and type of comments received prior to the meeting. A more detailed agenda will be developed depending on stakeholder input.]

Noon Lunch

1:00 p.m. Resumption of discussion

2:00 p.m. Q&As

3:00 p.m. Enforcement issues

4:00 p.m. Remaining issues and path forward

5:00 p.m. Adjourn

NOTES: Final detailed agenda will be available at the workshop.
