Early Site Permit (ESP) Application for the Clinton ESP Site
Docket No. 52-007

Subject: Submission of Reviewers Aid for Revision 1 to Exelon Generation
Company's Early Site Permit, Environmental Report

Re: Letter, Exelon Generation Company, LLC, (Marilyn C. Kray) to U.S. Nuclear
Regulatory Commission (Document Control Desk), dated June 3, 2005

Under the cover of the referenced correspondence, Exelon Generation Company, LLC (EGC) submitted Revision (1) to the Environmental Report (ER) portion of its Early Site Permit application. This revision did not annotate minor and insignificant typographical and editorial corrections (the "Corrections") reflected in the revision. Subsequently, to aid in the NRC's identification of the corrections, EGC was requested to annotate the Corrections and submit these annotated pages to the NRC as an aid in support of the NRC's ER review (i.e., a "Reviewer's Aid").

Accordingly, enclosed is the requested Reviewer's Aid consisting of pages from Revision (1) to the ER with said pages containing highlighted areas identifying the Corrections.

A CD containing the Reviewer's Aid is provided in the Enclosure.
