New, Research and Test Reactors Program
Division of Regulatory Improvement Programs, NRR

SUBJECT: SUMMARY OF JULY 5, 2005, TELEPHONE CONFERENCE CALL WITH
DOMINION NUCLEAR NORTH ANNA, LLC, REGARDING SAFETY
EVALUATION REPORT FOR THE NORTH ANNA EARLY SITE PERMIT
APPLICATION

On Tuesday, July 5, 2005, a telephone conference call was held among representatives of Dominion Nuclear North Anna, LLC (Dominion) and the Nuclear Regulatory Commission (NRC) staff. A list of participants is attached. The purpose of the conference, which was held at the request of Dominion, was to discuss the agenda for the Advisory Committee on Reactor Safeguards (ACRS) meeting on the final safety evaluation report (FSER) for Dominion's early site permit (ESP) application for the North Anna ESP site.

July 5, 2005, conference

The purpose of this conference was to discuss the agenda for the July 6, 2005, ACRS meeting to ensure that the applicant and the staff's presentation address the issues of interest to the ACRS.

Dominion stated its presentation would include a general overview of the North Anna ESP application, a description of the site, a list of the major milestones, and a detailed discussion of the resolution for all the open items in the draft safety evaluation report (DSER).

The staff informed Dominion that the main objective of the staff's presentation to the ACRS was to discuss the permit conditions and the combined license (COL) action items that the staff was recommending for inclusion in any ESP that might be issued for the North Anna ESP site.

Before concluding the conference, Dominion stated that it was conducting a detailed review of the FSER and a final review of its application. The staff indicated that the FSER would be updated after the ACRS meeting to incorporate any comments from the ACRS and to include the final letter report from the ACRS as an appendix. The staff stated that any changes to the North Anna ESP application would need to be submitted for staff review and consideration prior

L. A. Dudes

-2-

to July 20, 2005, to avoid impacting the project schedule. The staff noted that the current project schedule calls for the FSER to be formally issued as a final NRC technical report (i.e., a NUREG) by August 29, 2005.

Dominion agreed to notify the staff of any changes to their application by July 20, 2005.

Docket No. 52-008

Attachment: As stated
