SUBJECT: INVITATION LETTER - PUBLIC MEETING TO DISCUSS SELECTED TOPICS
FOR THE REVIEW OF EMERGENCY PREPAREDNESS (EP) REGULATIONS
AND GUIDANCE FOR COMMERCIAL NUCLEAR POWER PLANTS

Dear Mr. Burke:

On August 31 and September 1, 2005, the U.S. Nuclear Regulatory Commission (NRC) will host a public meeting at the Bethesda North Marriott Hotel and Conference Center, 5701 Marinelli Road, North Bethesda, Maryland 20852. The purpose of this meeting is to discuss selected topics for the review of emergency preparedness (EP) regulations and guidance for commercial nuclear power plants.

The first day of the meeting will cover topics pertaining to potential changes to emergency preparedness regulations and guidance for commercial nuclear power plants. This portion of the meeting will be conducted as a roundtable discussion among participants who have been invited to represent the broad spectrum of interests in the area of emergency preparedness. The spectrum includes representatives from State, local and Tribal governments, Department of Homeland Security (DHS)/ Federal Emergency Management Agency (FEMA), NRC, advocacy groups, and the nuclear industry. The meeting is open to the public, and all attendees, including State, local, and Tribal governments not represented at the roundtable, will have an opportunity to offer comments and ask questions throughout the meeting.

The second day of the meeting will include a discussion of emergency preparedness-related issues that arose at the NRC/FEMA workshop during the 2005 National Radiological Emergency Preparedness Conference. This part of the meeting will be conducted in a town hall-type setting and all attendees are encouraged to participate in the discussion. The public meeting notice and agenda are provided as Enclosure 1 and have been posted on NRC's public website.

The NRC recognizes that State, local, and Tribal governments are the key to successful emergency planning, preparedness, and response. The NRC can support funding the travel and per diem for you or your designee to attend the meeting. If you prefer to designate someone to represent you at the meeting, your designee should be someone who is directly involved in the State's nuclear power plant emergency preparedness program. Alternatively, you may designate a representative from a local government organization who is directly involved in the State's nuclear power plant emergency preparedness program. In addition, please note that an invitation to be one of the State government participants at the roundtable has been extended to Ms. Jana Fairow of your staff.

You or your designee should complete the Participant Travel Form (Enclosure 2) and provide the form to Ms. Sally Billings via fax: 301-816-5151, or e-mail: SAB3@NRC.GOV by July 20, 2005. Ms. Billings can be reached on 301-415-6412.

In order to facilitate reimbursement for travel, you or your designee should follow the Travel Instructions provided in Enclosure 3. Please note that hotel and airline reservations should be made as soon as possible. Please mention "NRC Emergency Preparedness Public Meeting" while making hotel reservations.

For those stakeholders who cannot attend the meeting, the NRC will accept written comments until close of business on Monday, October 17, 2005 (must be post-marked no later than October 17, 2005 if sending by regular mail). These comments will receive the same consideration as those expressed at the meeting. In addition, the meeting will be transcribed, and the transcription will be made available on the NRC public website.

The NRC encourages all participants to frequently check the following website for the most current information on the meeting. New information will be added to this website periodically, as necessary:

I look forward to seeing you or your designee at the meeting.
