

Date: June 20, 2005

FINAL SUMMARY OF INFORMATION COLLECTION REQUEST

Title: NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters"

Current Burden/Responses: 1,104 hours/4,232 responses

Proposed Burden/Responses: 1,033 hours/3,963 responses

Number of Respondents: 167

Burden Attributable to Third-Party Collections: None

Frequency of Response: On occasion

Reasons for Changes in Burden/Responses:

Based upon the actual number of responses received during the last 3 years (3,963 instead of the estimated 4,232, a reduction of 269), the overall burden estimate for NRC Form 241 has decreased from 1,104 to 1,032.5 hours, for a net reduction of 71.5 hours. Burden hours have been rounded up to 1,033 for a net reduction of 71 hours. The number of initial submissions decreased by 17 from 184 to 167 submittals for a reduction of 9 hours; the number of revisions decreased by 412, from 1,012 to 600 for a reduction of 103 hours; and the number of clarifications increased 160 from 3,036 to 3,196 for and increase of 40 hours. In addition, there has been a decrease in the cost from \$321,264 to \$283,452 although there was an increase in the hourly rate from \$144/hour to \$156/hour.

Office of Nuclear Material Safety and Safeguards

Recordkeeping Requirements in Accordance with the Retention Periods for Records Rule: N/A

Search of the Information Requirements Control Automated System (IRCAS):

IRCAS was searched. No duplication was found.

Abstract: NRC Form 241 is required to be filed and with the NRC by any Agreement State licensee who engages in activities (use of radioactive byproduct material) in non-Agreement States under the general license in Section 150.20. The licensee is required to file four copies of the NRC Form 241 and four copies of its Agreement State license at least three days before engaging in each such activity. This notification permits NRC to schedule inspections of the activities to determine whether the activities are being conducted in accordance with requirements for protection of public health and safety.
