I am not sure I understand what that means? Are we expected to give them our feedback based on an overview? I suppose this would be an acceptable approach, if it is followed by detail discussion on each RAI between the us and the licensee's technical staff.

This is a reminder that we will hold a conference call with Entergy today at 2:00 pm in 10B4 to discuss the GE methods RAIs. Based on my discussion with them this morning, they hope to provide an overview on how they plan to respond to the RAIs rather go into a detailed discussion on each question.

thanks,

Rick
