Dear Dr. Vetter:

Enclosed is Amendment No. 66 to your NRC Material License No. 22-00519-03 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Please note that the old J.L. Shephard Model 143-68 was not removed from your license. The removal of this device will require an amendment to your license. The amendment request should contain (1) confirmation that the device has been transferred in accordance with NRC requirements and (2) evidence that no residual radioactivity associated with the device remains at you facility.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The enclosed license document is exempt from public disclosure in accordance with 10 CFR 2.390, because its disclosure to unauthorized individuals could present a security vulnerability.

Sincerely,

A handwritten signature in black ink that reads "Toye L. Simmons".
