Control No.: **314402**

SUMMARY

We have reviewed your letter dated March 9, 2005, (which was voided from control number 314291 and combined into 314402 for the sake of licensing economy) requesting an amendment to your byproduct materials license and find that we need additional information as follows:

1. Please note that 10 CFR 35.433(a) is the only regulation in 10 CFR 35.400 F that requires an Authorized Medical Physicist, for the strontium-90 ophthalmic applicator. Therefore we cannot authorize David Y. Chin, Ph.D. for any other use in 10 CFR Part 35.400. Please also note that Dr. Chin's state physicist license is not currently recognized by NRC for any purpose.
2. Please direct us, explicitly, to remove the authorization for the strontium-90 Novoste devices from your license, if that is your intention. Please also submit a copy of the last leak tests performed on the Sr-90 Novoste sources you disposed of to the vendor to ensure that they were free of removable contamination.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

ACTION REQUIRED

Submit the requested information within 15 calendar days (by June 9, 2005) by referencing control number 314402 to facilitate proper handling. Upon receipt of your response we will resume our review. Address your written response to my attention at the above address.

PLEASE DIRECT ANY QUESTIONS YOU MAY HAVE TO ME AT (630) 829-9841 or (800) 522-3025.
