On behalf of the Nuclear Regulatory Commission, I am responding to Mr. Hill's 15 July 2005 memorandum to NRC Chairman Nils Diaz regarding Domestic Nuclear Detection (05-2962). As you may be aware, the NRC has already designated two individuals as working liaisons between the NRC and the Domestic Nuclear Detection Office and who are working down at DHS. They are Richard Turtill and Charles Cox. They communicate matters requiring coordination with NRC management through Dr. Cynthia Jones, Senior Technical Advisor for Nuclear Security, who also serves on the DNDO Intergovernmental Coordinating Committee (initial meeting planned for 21 July). We appreciate the opportunity to coordinate the important matters regarding domestic nuclear detection with DNDO/DHS and look forward to continued cooperation with you on these matters.

Dr. Jones can be contacted at:

Mr. Turtill and Mr. Cox are co-located with the DNDO offices.

Sincerely,

Michael Weber
