

**July 28, 2005**

Mr. George Vanderheyden  
Vice President  
Calvert Cliffs Nuclear Power Plant  
1650 Calvert Cliffs Parkway  
Lusby, MD 20657-4702

SUBJECT: EXTENSION REQUEST FOR THE FOREIGN OBLIGATIONS  
REPORTING REQUIREMENT

Dear Mr. Vanderheyden:

This letter is in response to your April 28, 2005, letter requesting an extension for reporting foreign obligations. In your letter, you proposed a change in the timing of obligations reporting that will occur when Calvert Cliffs Nuclear Power Plant, Units 1 and Unit 2 restart after installation of Canadian replacement reactor vessel closure heads (RVCHs).

We have reviewed your proposal and have determined that extending the reporting requirement would still allow the U.S. Government to meet our treaty commitments with the Government of Canada. As such, the extension you proposed in your letter is approved. This approval only involves the timing of the reports your company will be sending to the Nuclear Materials Management and Safeguards System (NMMSS) operator. All of the other conditions conveyed to Constellation Energy in our previous letter remain in place.

If you need further assistance please contact Ms. Patricia Tana of my staff at 301-415-8105 or [pmt@nrc.gov](mailto:pmt@nrc.gov).

Sincerely,
